Novikov Viktor

MIPT DREC, 3rd year student

About me

Programming languages:

C

C++(trying to learn)

Tools:

Linux

Jupyter Notebook

git

make

valgrind

gdb

LaTex

Verilog

Strengths:

Responsibility, communication skills, fast learning

Achievements:

- Two-time participant in the final stage of the Belarusian Physics Olympiad
- Four-time participant in the 3rd stage of the Belarusian Math Olympiad

Work experience:

-Completed an internship at MCST under the "Linux Kernel Development and Testing" program (July-August 2024).
-Completed Computer Network course in MIPT DREC. I know how the lower 4 levels of the OSI model work.

Some of my projects are on github, the link to which I have attached above:)
